

SHARYN "FRAMELESS" PASS-THRU WINDOW

NEW!

- Modern "Frameless" Appearance as Opposed to Traditional Framed Pass-Thru Windows
- "No-Hole" Top Hung Clamp-On Roller Assemblies Allow Height Adjustability
- Double Track Header has Side Walls that Hide Roller Assemblies
- Optional Fixed Lite Header Insert
- Available Glazed with 1/4" (6 mm) Tempered Glass or Unglazed
- Offered in Three Different Two-Panel Configurations of Sliding and Fixed Panels (XX, OX, and XO)
- Stock Size Windows Offered, Along With Custom Sizes
- Available in Brite Anodized, Satin Anodized, and Dark Bronze Painted Finishes

The **NEW CRL Sharyn Frameless Pass-Thru Window** will bring a modern appearance to what has been a traditional looking world of pass-thru windows. The "No Hole" Clamp-On Assemblies match the Header finishes, and allow height adjustment of approximately 3/16" (5 mm) that may be required due to field conditions. The Double Track Header has side walls that discreetly hide the Roller Assemblies, thus eliminating the need for unsightly valance covers.

The Sharyn "Frameless" Pass-Thru Window is offered in three different two panel configurations of sliding and fixed panels to accommodate most any service condition. An optional Fixed Lite Header Insert is for the fixed side panel, and a recessed bottom track (requiring two single tracks) is also available as an option. A Thru-Glass Mounted Keyed Lock or Push Button Lock can be ordered separately for Custom Windows. The Push Button Lock is included on the stock window. Rubber Bumpers are included in each kit to assure soft closing of the window. A Thru-Glass or Stick-On Finger Pull can be ordered separately for window movement. 48" x 48" (1219 x 1219 mm) 1/4" (6 mm) pre-glazed stock models are available when a quick solution is required to complete your job, or "Quick-Fab" Custom Windows are also available. Custom windows are available with 1/4" (6 mm) clear tempered glass, or unglazed.
