

CRL LOCKING LADDER PULLS

No More Bending or Kneeling to Lock Doors

NEW!

- A.D.A. Compliant Top Locking Models Now Available
- Ten Styles in Stock, Custom Sizes Available for 1/2" to 3/4" (12 to 19 mm) Tempered Glass
- Made of Durable 1-1/4" (32 mm) Diameter 316 Grade Stainless Steel Tubing
- 1-1/4" (32 mm) Long Deadbolt Throw - All Units
- Will Accept Most Standard Manufactured Rim Type Cylinders

The most practical option for "all-glass" entrances is **CRL's Locking Ladder Pulls**. No more kneeling down to unlock the entry doors in the morning, or having to bend over after a long day at work to reach for the lock at the bottom edge of the door. Simply turn a key or thumbturn located at a comfortable height above the finished floor to lock or unlock your doors. CRL Locking Ladder Pulls have a fully concealed deadbolt locking mechanism that locks into the floor or header. Locking Ladder Pulls are supplied with our standard 7-pin Rim Cylinder with interchangeable core, that can be used as the final cylinder or as a temporary, and is easily replaced. If staying with the 7-pin format, just remove the core, have it re-keyed or replace it with a new one. If proprietary 6-pin Cylinders are required, simply remove the entire Rim Cylinder provided and replace with the proper Rim Cylinder of your choice.
