## INCREASED PRODUCTIVITY, ACCURACY, AND PROFITABILITY

CRL is committed to the success of glazing companies, and continues to make significant investments to develop the tools and services that allow you to take on new jobs while saving time and money. We are proud to offer our suite of design and estimating software that speaks directly to that commitment.

Showers Online® is a one-stop-shop that allows you to design and build heavy glass shower enclosures faster than ever. This innovative, easy-to-use program eliminates the weakest link in your ability to compete and increase your shower door business. The biggest roadblock for any shower business is the time it takes to manually work through an enclosure design, compute the glass sizes, gaps, hardware selection, and associated template locations. In the end, there is still a question of accuracy, revisions, and costly reworks. Showers Online® was built to address these issues head on, enabling you to take on the toughest projects, increase efficiency, and grow your business. It's like hiring a professional to do the work for you.

Visit [crlaurence.com/showers-online](http://crlaurence.com/showers-online) to experience CRL Showers Online®.

## FEATURES AND ADVANTAGES

### DEVELOPED BY GLAZING PROFESSIONALS, FOR GLAZING PROFESSIONALS

Showers Online® was developed in-house by our team of engineers, estimators, designers, project managers, and former installers who possess decades of experience in the glass and glazing industry.

### YOUR JOB JUST GOT EASIER

Enter a list of products being used for a particular job, and the field measurements for the installation. Showers Online® then calculates final glass sizes and displays detailed information, including hinge and handle locations, miters, and much more. Users can select numerous default settings, hardware types, and clearances. You can access Showers Online® at home, in the office, or on the job site via your PC, Mac, smartphone, tablet, or any internet-enabled device.

### NEW UPDATES

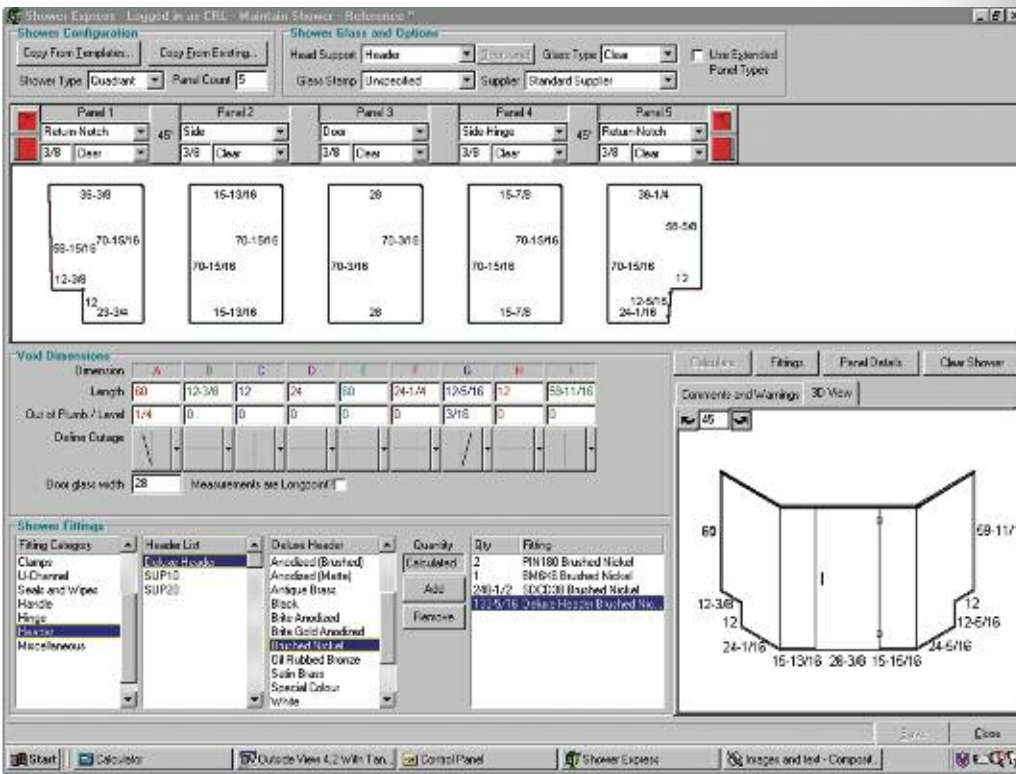

- Now features full support for designing sliding and bi-fold shower door systems, and enclosures with angled braces and headers in addition to over 200 shower enclosure options.
- “Packages” feature enables users to save custom hardware packages and configurations.
- DXF Export Feature for CNC fabrication needs.
- Branding feature lets you add your logo and company information to reports.

### SHARP ATTENTION TO DETAIL

- The program keeps a complete record of all of your jobs, favorite systems, and specific configurations, while allowing you to set up personal product libraries. It features many easy-to-use templates or you can create your own.
- A built-in warning system will automatically identify and help correct any flaws in your system to ensure structural integrity.
- Gives you hardware pricing every time you save a job and allows you to order product directly through the program.

### COMPLETE SUPPORT AND TRAINING

CRL offers free, unlimited technical support and webinar sessions to train your team in no time.

User-friendly interface generates quotes/orders in minutes.

## IS SHOWERS ONLINE® FOR YOU?

- Do you quote and install frameless shower door systems and hardware?
- Do you need assistance with designing safe shower doors and enclosures?
- Do you require professional drawings and visual proposal aids?
- Do you want to grow your business and expand your technical capabilities?

If yes, then go to [crlaurence.com/showers-online](http://crlaurence.com/showers-online) to attend a webinar and receive your **FREE 30-DAY TRIAL.**

## FREQUENTLY ASKED QUESTIONS

**Q: Does Showers Online® work in the Metric System?**

**A:** Yes.

**Q: Is the program available in multiple languages?**

**A:** Yes, Showers Online® features full support for English, Spanish, French, and German.

**Q: Does Showers Online® support multiple glass thicknesses?**

**A:** Yes.

**Q: Will the program generate a cost for stock and custom finishes?**

**A:** Showers Online® will automatically generate pricing for our more than 25 stock hardware finishes and colors. Custom finishes are available for special order.

**Q: Can you easily change a quote?**

**A:** Yes. The program is designed to quickly prepare modified pricing and glass sizing based on last minute changes.

**Q: Can I print, email, or fax final documents from the program?**

**A:** Yes. Showers Online® will produce a final parts list, quote cover sheet, 3D enhanced system drawings with dimensions, glass sizes and an installation sheet for your convenience in PDF or Word documents. All generated documents can be printed, emailed, or faxed directly from the program, or viewed on any internet-enabled device.

**Q: Are there additional costs for software updates?**

**A:** No. We provide regular, free updates to ensure the software is up to date with the latest systems, tools, and performance upgrades.
